THE NEWS OF WICKENBURG

Wickenburg, Ariz., June 15.—(Special correspondence of The Republican.)—The increasing warmth of the weather does not seem to affect the ardor of the mining engineers who are coming in here in search of good prospects. They are sometimes accompanied by those who have the capital to invest, though usually the man of experience is prone to abide by the advice of the skilled engineer, in whose judgment he may have confidence.

We were favored last week by a visit of the officials of the Val Verde Copper company. Messrs. Cecil G. Gerall and M. Fennell, who spent several days in examining the properties about here and noting the extent of development of copper claims. While their mission was not known to but a few, it was pretty well understood to be in connection with locating some operations in or about Wickenburg that would mean much for the future of the town. They are expected to return within a short time, when further will be known of the matter.

The action of the district court at Prescott in dismissing or discharging Benj. Swininger last week is generally commended by all here who were familiar with the circumstances attending the shooting, on charge of which Swininger was held since last November, and he has been receiving the congratulations of his many friends in and about here. He is suffering from his close confinement and it will be some time before he recovers sufficiently to take up the operations of his claim.

The action of Judge Street in denying motion of Henry Wilson's counsel for new trial, was rather expected by those here who had watched the proceedings in the recent trial, though the sentence of 15 years was longer than was generally anticipated. While the community at large accepts the result without contention, still it sympathizes with the wife and family of Wilson on whom the blow falls severely.

Mrs. Ignacio Grijalva of North Second street, has been very seriously ill for several days, and her condition was so critical that Dr. Derret of Congress was called and recommended her removal to Congress for surgical operation. She was taken up on the morning train.

Mrs. Robert Whitehead has moved into her house on North First street, which has recently been repainted and refurnished throughout.

Mrs. Francis B. Jacobs, son and daughter came up from Phoenix last week and will reside in future on Center street.

The business men and residents generally were surprised when it was rumored about town last evening that the genial and faithful station agent, Mr. A. M. Corona, had been relieved of duty at this point. A largely signed petition was forwarded today to Mr. E. B. Wells, assistant general manager of the S. F. P. & P. road, setting forth the estimation in which the business men held Mr. Corona and their desire that he be retained in his position, which he has filled with ability and fidelity.

Mr. Robinson of Wickenburg and Robinson is spending the day in town calling on his many customers.

Mr. C. W. McKee, the prominent young grocer of Phoenix spent Monday
